AgroSCO

We invite you to participate in the International exhibition «AgroSCO»

International exhibition «**AgroSCO**» will be held as part of the Belarusian Agro-industrial Week and the 35th International Agro-industrial Exhibition «**Belagro**».

The SCO region brings together some of the world's largest producers and consumers of agricultural products, which defines its important role in global efforts to ensure food security and stability.

International specialized exhibition «**AgroSCO**» is intended to promote sustainable economic growth of the agro-industrial complex of the SCO countries and to shape the image of agriculture as innovative, investment-attractive and sustainable developing industry that provides the population with food.

Key topics:

- Deepening cooperation among SCO member states to ensure food security
- Cooperation of the Republic of Belarus with SCO countries in the area of food security
- Development of cooperation in crop breeding and seed production
- Promotion of mutually beneficial trade in food and agricultural products, harmonization of rules and requirements for import and export of food commodities
- Search for new export markets for agricultural machinery, fertilizers, feed, veterinary drugs, finished agricultural products
- Promotion of «smart» agriculture, introduction of agro-industrial innovative technologies for transition of SCO states to «green» agriculture.

10 Member States:

1. India
2. Iran
3. Kazakhstan
4. China
5. Kyrgyz Republic
6. Pakistan
7. Russian Federation,
8. Republic of Tajikistan
9. Republic of Uzbekistan
10. Republic of Belarus
