BELAGRO

"The exhibition BELAGRO reflects the dynamics of the implementation of the country's main directions in agro-industrial area. This forum definitely reflects the achievements of agro-industrial complex of Belarus and can truly be considered an annual synthesis of international experience. BELAGRO is extremely popular among our foreign partners."

"The exhibition BELAGRO is a kind of summary on the achievements of agro-industrial complex. The interest in the exhibition is very high. A large number of contracts are usually signed at the exhibition. We can say for sure that the exhibition is always a success."

"The exhibition BELAGRO displays not only samples of achievements of agricultural sector. We aimed to show that Belarus is a highly developed industrial country that possesses modern mechanical engineering complex and latest technologies. This exhibition is also a platform with a great opportunity to discuss new projects, meet potential partners, and sign new contracts."

By the number of presented innovations, BELAGRO is the leading business platform of the country.

As a rule the exhibition is accompanied by extensive business program, which includes more than 40 events in various areas of agro-industrial sector: forums, conferences, B2B meetings, seminars, competitions, presentations, demonstrations, etc.
